AARAMBH

In the 21st century the style trends of the fashion industry dominate the world more than they ever did and control, not only the way people dress but also the trends in their minds. People's attitude and their way of thinking in the 21st century is different from the 20th century. People are more confident and more daring. They are more open to new ideas and more willing to try new things. They are more aware of their own identity and more proud of their own culture. They are more confident and more daring. They are more open to new ideas and more willing to try new things. They are more aware of their own identity and more proud of their own culture.
