Happy Being
I don't need many things to be happy.
I don't need glamour and attention to be happy.
I'm very happy being settled and working
my butt off and trying to win grand things

Happy Being
I don't need many things to be happy.
I don't need glamour and attention to be happy.
I'm very happy being settled and working
my butt off and trying to win grand sums

Today, people are more into the glitz and the glamour of everything. We don't even read the inside of records anymore.

 I don't need glamour and attention to be happy.
 I'm very happy being settled and working
 my butt off and trying to win grand slams.
