EDGE

It is a history of people. During the past century, it was the women and designers that led the boundaries of the modern fashion industry in India. The liberation of women from colonial subordination, the creation of ready-to-wear clothing, jeans, trousers, sweaters, dresses, blouses, trousers, halwa, dhotis, making and even protection of intellectual property rights, are each a direct result of the capacity, honesty and creative genius of individuals who were in their lifetime artists and social revolutionaries.
